

CURRICULUM OUTLINE

Salisbury: Year 4 Autumn Term 2023

'Rotten Romans!'

History: The Autumn term topic in year 4 is **Rotten Romans!** Over the course of the term, the children will investigate and learn about the Roman Empire. Including how it was formed and expanded; its organisation and structure; daily life for both Romans in Italy and here in England, in particular Lincolnshire; entertainment and architecture; how the Romans occupied England, Boudica's up-rising and finally the legacy they left us, reflecting on the key question, "What did the Romans do for us?"

Literacy: The term will start with the class writing recounts about their summer holidays. This will be followed by the children looking at writing a piece of narrative using the book, 'Journey' by Aaron Becker as the inspiration. During the second half of the term, the class will develop their skills of writing an explanation text based on our science theme of the 'Human Digestive System'. During the course of a week, handwriting skills will be practised, spelling strategies taught, grammar rules taught and revisited along with Guided Reading sessions. lacc.

Numeracy: The class will spend time exploring place value, which will also weave itself through our focus on mental addition and subtraction skills; use of written methods for addition and subtraction, multiplication and division. Because our topic is Rotten Romans it seems a great opportunity to explore Roman numerals. Each week the children will practise their times table knowledge by challenging themselves to complete the 'TT Rockstars' questions within a set time with the aim to improve recall and timings. In addition, there will be daily Morning Mission Challenges that explore various aspects of math to aid consolidation.

Science: During the autumn term, we will be learning about food chains; teeth – the different types and positioning of teeth within humans then comparing this knowledge with the teeth of various animals investigating on how and why they may differ. Plus, we will be developing our understanding of the human digestive system.

Computing: This term, after the children have further developed their publishing skills and produced topic covers, the children will develop the skill of effective searching when looking online for various types of information/content followed by Coding. In this unit, the class will often start by looking at an existing code and make predictions as to what they think will happen when the code is run; spend time investigating the code and looking and understanding how different parts work, then go onto modify it – changing and adding code and re-running the program to view the impact of their changes. Supporting this will be a dedicated set of lessons about 'On-Line Safety'.

Art / Design Technology: In term 1, the children will research Roman mosaics, their importance to historians; consider designs and then create a mosaic of their own using simple printing techniques. In term 2, the class will then investigate Roman architecture focusing on columns: how they were extensively used and their use in the construction of aqueducts.

Religious Education (RE): Our theme, in term one, is Buddhism in which the children will initially learn about the life of Budha and how he tried to be happy and stay happy which leads us to then explore the question: 'Is it possible for everyone to be happy?' After half term, we will be preparing for Christmas by learning to understand the symbolism in the Christmas story and think about what the different parts mean to Christians today with the aim of answering the key question: 'What is the most significant part of the Nativity story for Christians today?'

Physical Education (P.E): The outdoor P.E theme this term is 'Invasion Games' in which the class learn to

play as part of a team and the importance of teamwork plus understand their purpose: to invade the opponent's territory or zone to score goals or points; protect your own territory to prevent the opposition from scoring goals or points. Using the games of hockey and rugby, the class will hone the skills of possession, attacking and defending. Our indoor theme will be dance. The theme will enhance the children's

learning of the Roman era to then create a set of dance moves that portray that element of the Romans. Our P.E days are **Monday (indoor)** and **Wednesday (outdoor)**. Please ensure your child has suitable kit and footwear for these activities.

Music: In term one, all the learning is focused around one song: Mamma Mia. During the term the children will listen and appraise this ABBA song against others from this famous Swedish band. They will learn the lyrics with a view to perform it plus opportunities to learn and play some of the instrumental parts creating and adding improvised parts. In term two, the unit of Work continues to teach the children about the language of music through playing the glockenspiel considering the 'pulse' and 'rhythm' of the piece of music style.

Personal Social & Health Education (PSHE) / JIGSAW

The themes this term will be 'Being Me In My World' and 'Celebrating Difference'. In our sessions we will explore being part of a class team, a school citizen, our responsibilities and rights thinking about democracy plus rewards and consequences while working towards a class charter. The class will reflect on how we are all different; including others when working or playing; understanding what bullying is and how to help those being bullied plus how to solve problems.

French: During the term, the class will recap their knowledge of key French phonics plus learn key terminology and vocabulary associated with how to: Count to 20; say their name and age; say hello and goodbye and then ask how somebody is feeling and answer how they are feeling; tell you where they live; tell you their nationality and understand basic gender agreement rules.

Homework: Homework will be provided to support the maths and literacy learning to ensure consolidation of knowledge. Regular, recorded, reading and times table practice will be included and although reading homework will be set, we would always encourage children to read for a minimum of 10 minutes per day outside of school, whether independently or to an adult. This can be their school reading book or a text of their choice (newspaper, age-appropriate magazines). In addition, a piece of research may be requested to support the topic theme. Homework will be provided on a weekly basis; handed out on a Thursday to be returned, completed, on a Tuesday.

Social Media: To keep up to date with what is happening both in school and the classroom, visit the school website and the class page where there are regular updates on the various activities and learning the children in Year 4 are experiencing. Alternatively, follow us on Twitter.
