D – Developing

E – Expected

GD – Greater Depth

The questions start with Developing and get progressively harder as children work their way towards Greater Depth.

VF – Varied Fluency

Question type in both Mathematics and Grammar, Punctuation and Spelling (GPS) Resource Packs. These questions allow children to practise the same Mathematical or English skill in different ways, resulting in children completing problems with speed and accuracy.

RPS – Reasoning and Problem Solving

Question types in the Mathematics Resource Packs. Reasoning questions involve thinking through mathematical problems logically. It involves explaining or justifying the solution/answer to a problem. Problem solving questions involve children applying their knowledge and skills to an unfamiliar or completely new context.

AR – Application and Reasoning

Application and reasoning. Application involves children using their knowledge and skills in an unfamiliar or completely new context. Reasoning questions involve thinking through written problems logically. It involves explaining or justifying the solution/answer to a problem.

Question openers
